

Power Up: Smart Setup Guide for Your Power Strip

Quick Setup Tips

1. Plug your HANYCONY Surge Protector into a wall outlet.
2. Mount it on a wall or under your desk using the keyhole slots.
3. Connect your devices to the 8 AC outlets.
4. Use the 2 USB-C and 2 USB-A ports for charging phones, tablets, or other gadgets.
5. Ensure the braided extension cord is placed safely to avoid tripping.

Best Practices

- Use USB-C for newer devices for faster charging.
- Avoid overloading with high-wattage appliances.
- Unplug during thunderstorms if not in use.
- Periodically check that the surge protector is functioning properly.
